

Adani Care Foundation

EMPOWERING WIDOWS, ORPHANS,
THE SICK & THE AGED

Help us raise awareness of abject poverty in Nigeria and take critical action today.

About Us

Adani Care Foundation is a 501(c) 3 non-profit organization. Our mission is to: (a) Create public awareness of the abject poverty that ravages the rural communities of Nigeria, and (b) Help reduce the impact of that poverty by helping to lift members of the community above the poverty line. Our focus is Nigeria and the Midwest USA.

What We Do

Through digital advocacy, word of mouth, social programs, and in-person village gatherings that connect the hearts of the community, we raise awareness of abject poverty in Nigeria and take critical action to address it. Our goal is to provide food and medical care for the needy, both children and adults, as well as education (K-12 & university), and technical / vocational training in skills.

Why Us

We believe that reducing the impact of poverty wherever it exists is a paramount concern for all citizens of the world! Jesus asked the Jewish leaders, "Who is your neighbor?" In His parable of the "Good Samaritan," Jesus reveals that our neighbors are the strangers, the foreigners, the poor, and even those who live far away from the comforts that we enjoy in our own country.
